

Cancer Prevention Europe Early Career Network

First CPE networking event

The aim of the event is to bring together early career professionals to get to know each other and **share our experiences of cancer prevention in Europe**. We will also exchange perspectives on **career paths** and discuss **opportunities for collaboration**. You do not need to prepare for the networking event.

This event is open to **early career professionals and graduate students** who are members of any of Cancer Prevention Europe (CPE)'s core or affiliate member institutions. CPE is a consortium of organisations working in cancer prevention to reduce the cancer burden across Europe.
