

ECHIG – Workshop 2026

From 28 (1 PM) to 30 September 2026 (3 PM) (Lyon time)

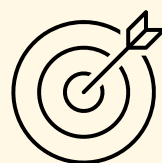

*International Agency for Research on Cancer
25 Avenue Tony Garnier,
69007 Lyon FRANCE*

The Environment and Child Health International Group (ECHIG) aims to strengthen the collaboration and coordinate the activities of the birth cohorts from Japan, France, Denmark, South Korea and Norway and human biomonitoring studies from Germany.

The main goal of the workshop is to exchange on methodological approaches for data analysis, analytical methods and cohort management, generate research ideas, and foster collaboration and dialogue between different generations of scientists.

Hybrid event : On site – 115€ (+50€ for dinner), online – 0€

Topics :

- *Exposure assessment – biospecimen measurements, questionnaires, geospatial modelling, other related topics.*
- *Statistical analysis.*
- *Association between health outcomes and environmental exposures (including viral infections and dietary exposures), genome and G x E analysis.*
- *Cohort management/participant retention/engagement.*
