CORRIGENDUM

Kindly replace paragraph 9 on page 2 of document GC/60/13 by the paragraph shown below.
Thank you.

9. The Director has decided that both the Preamble (in November 2018) and the Working Procedures (February/March 2019) will be revised over the next year by external Advisory Groups comprised of independent scientific experts. WHO/HQ will be invited to both Advisory Groups as a part of the IARC-WHO/HQ secretariat. Both processes will involve wide and transparent consultation, for example with the scientific community, governments, regulatory agencies, civil society and private sector entities.
